**FORM 2**  
**MCH BUDGET DETAILS FOR FY 2006**

[Secs. 504 (d) and 505(a)(3)(4)]

**STATE: IL**

**1. FEDERAL ALLOCATION**

(Item 15a of the Application Face Sheet [SF 424])

Of the Federal Allocation (1 above), the amount earmarked for:

A.Preventive and primary care for children:

\$ 7,713,290 ( 33.68%)

B.Children with special health care needs:

\$ 6,869,545 ( 30%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 542,300 ( 2.37%)

(The above figure cannot be more than 10%)[Sec. 504(d)]

**2. UNOBLIGATED BALANCE** (Item 15b of SF 424)

\$ 460,900

**3. STATE MCH FUNDS** (Item 15c of the SF 424)

\$ 32,433,600

**4. LOCAL MCH FUNDS** (Item 15d of SF 424)

\$ 1,375,900

**5. OTHER FUNDS** (Item 15e of SF 424)

\$ 74,363,400

**6. PROGRAM INCOME** (Item 15f of SF 424)

\$ 6,600,000

**7. TOTAL STATE MATCH** (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 27,569,600

\$ 114,772,900

**8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)**

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 138,132,300

**9. OTHER FEDERAL FUNDS**

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 100,000

c. CISS: \$ 140,000

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 1,775,000

f. EMSC: \$ 0

g. WIC: \$ 250,700,000

h. AIDS: \$ 0

i. CDC: \$ 0

j. Education: \$ 0

k. Other: \$ 0

Closing the Gap \$ 562,500

Title X \$ 7,585,200

Title XX \$ 9,363,300

UNHS \$ 150,000

**10. OTHER FEDERAL FUNDS** (SUBTOTAL of all Funds under item 9)

\$ 270,376,000

**11. STATE MCH BUDGET TOTAL**

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 408,508,300

## FORM NOTES FOR FORM 3

### Line 5 Other Funds

The budget amount in FY2006 for CSHCN "other funds" was increased by \$628,000 from the FY2005 budget due to permanent reductions in state and federal sources. These additional resources are allocated from local funding reserves generated through charges for care coordination services.

### Line 8 - Other Federal Funds

The budget figure for FY2006 is comprised of federal grants administered by the CSHCN agency for Newborn Hearing and Screening Services.

## FIELD LEVEL NOTES

1. **Section Number:** Main  
**Field Name:** FedAllocExpended  
**Row Name:** Federal Allocation  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**  
The department expended \$20.7 million of the FFY04 allocation by the end of that fiscal year. The remaining balance was expended during FFY05.
2. **Section Number:** Main  
**Field Name:** StateMCHFundsExpended  
**Row Name:** State Funds  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**  
The apparent decrease in the expenditure of State Funds is the result of: underexpenditure of GRF operations by \$750,000; reclassification by DHS of DSCC expenditures between State Funds and Other Funds (a reduction of \$5.8 million); reclassification of \$8.3 million in IMRI GRF funds as Medicaid match; reclassification of \$2.5 million in Targeted Intensive Prenatal Case Management funds as Medicaid match; and the addition of \$4.0 million in Early Intervention GRF as State Funds.
3. **Section Number:** Main  
**Field Name:** StateMCHFundsExpended  
**Row Name:** State Funds  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**  
.
4. **Section Number:** Main  
**Field Name:** LocalMCHFundsExpended  
**Row Name:** Local MCH Funds  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**  
This amount is the required local match for Abstinence Education expenditures.
5. **Section Number:** Main  
**Field Name:** LocalMCHFundsExpended  
**Row Name:** Local MCH Funds  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**
6. **Section Number:** Main  
**Field Name:** OtherFundsExpended  
**Row Name:** Other Funds  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**  
The apparent decrease in expenditure of other state funds results from budgeting HFI, PTS and TPS funds on the state fiscal year and reporting on the federal fiscal year.
7. **Section Number:** Main  
**Field Name:** OtherFundsExpended  
**Row Name:** Other Funds  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**  
The Department moved \$15.0 million in expenditures from "state funds" to "other funds" in order to increase the amount of Medicaid matching funds available to the state. The "state funds" were replaced with expenditures for Early Intervention services. Expenditures for some other programs included in "other state funds" were less than budgeted, in part due to budgeting on a state fiscal year and reporting on a federal fiscal year.
8. **Section Number:** Main  
**Field Name:** ProgramIncomeExpended  
**Row Name:** Program Income  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**  
The FY'03 Expenditure for Program Income is fees collected by Family Planning program delegate agencies.
9. **Section Number:** Main  
**Field Name:** ProgramIncomeExpended  
**Row Name:** Program Income  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**  
The amount of program income (third party payments and patient fees collected by Family Planning program grantees) was \$500,100 greater than the amount budgeted.
10. **Section Number:** Main  
**Field Name:** OtherFedFundsExpended  
**Row Name:** Other Federal Funds  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**  
Refer to Form 4 for a detailed comparison of Other Federal Funds.

## FORM NOTES FOR FORM 4

None

### FIELD LEVEL NOTES

- 1. Section Number:** I. Federal-State MCH Block Grant Partnership  
**Field Name:** PregWomenBudgeted  
**Row Name:** Pregnant Women  
**Column Name:** Budgeted  
**Year:** 2006  
**Field Note:**  
A note will be added in the final application.
- 2. Section Number:** I. Federal-State MCH Block Grant Partnership  
**Field Name:** PregWomenExpended  
**Row Name:** Pregnant Women  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**  
The drop in expenditures for services provided to pregnant women was due to a shift in the composition (the proportion who were pregnant women, infants, children, adolescents and others) of persons served by the "MCH Mini Block Grant" to the Chicago Department of Public Health. The budgeted proportion of pregnant women (24 percent) was greater than the proportion used in allocating expenses (15 percent).
- 3. Section Number:** I. Federal-State MCH Block Grant Partnership  
**Field Name:** Children\_0\_1Budgeted  
**Row Name:** Infants <1 year old  
**Column Name:** Budgeted  
**Year:** 2005  
**Field Note:**  
The increase in budget for enabling services reflects the addition of \$10 million in GRF Early Intervention funds to the State-Federal Partnership. These funds were added to offset the reclassification of \$12.0 million in GRF IMRI funds and \$3.25 million in Targeted Intensive Prenatal Case Management funds for Medicaid match.
- 4. Section Number:** I. Federal-State MCH Block Grant Partnership  
**Field Name:** Children\_0\_1Expended  
**Row Name:** Infants <1 year old  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**  
The \$12.9 million increase in expenditures for infants reflects the addition of \$15 million of Illinois General Revenue expenditures for the Early Intervention program. The addition of these funds allowed IDHS to use an equivalent amount of funds for the Family Case Management program to claim matching funds through the Medicaid program.
- 5. Section Number:** I. Federal-State MCH Block Grant Partnership  
**Field Name:** Children\_1\_22Expended  
**Row Name:** Children 1 to 22 years old  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**  
The apparent reduction in expenditures for children 1-22 arises from budgeting for HFI, PTS and TPS on the state fiscal year and reporting expenditures on the federal fiscal year. The programs that contributed most to the underexpenditure include HealthWorks of Illinois (\$1.1 million less); PTS (\$1.1 million less); TPS (\$2.9 million less) and FCM (\$1.8 million less).
- 6. Section Number:** I. Federal-State MCH Block Grant Partnership  
**Field Name:** CSHCNExpended  
**Row Name:** CSHCN  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**  
Expenditures were below budgeted levels due to reductions in State funding for CSHCN. In addition, expenditures for children in the Title 19 Home and Community Based Waiver Program are not included in the aggregate expenditures for CSHCN as previously reported.
- 7. Section Number:** I. Federal-State MCH Block Grant Partnership  
**Field Name:** CSHCNExpended  
**Row Name:** CSHCN  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**  
CSHCN: Factors that led to the reduction in spending for CSHCN was a decrease in the aggregate MCH Block Grant funds distributed to Illinois and the State's cutback in the percent of Title V funds provided to DSCC for CSHCN from 32.1 percent to 30 percent. These reductions alone accounted for nearly all of the reduced spending for CSHCN in FFY 2004
- 8. Section Number:** I. Federal-State MCH Block Grant Partnership  
**Field Name:** AllOthersExpended  
**Row Name:** All Others  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**  
The increase in expenditures for Other Persons is due to the collection of more patient fees in the Family Planning program than were expected.
- 9. Section Number:** I. Federal-State MCH Block Grant Partnership  
**Field Name:** AllOthersExpended  
**Row Name:** All Others  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**  
The \$2.0 million reduction in spending for services provided to other persons reflects a change in the allocation of Program Income. The entire amount (which comes from the Family Planning program) was budgeted for "others" but has been allocated among "children and adolescents" and "others" based on the number of adolescents served through the Family Planning program.
- 10. Section Number:** I. Federal-State MCH Block Grant Partnership  
**Field Name:** AdminExpended  
**Row Name:** Administration  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**

The budget for administrative costs includes indirect costs for staff who are supported by the Block Grant and audit costs. The Block Grant was not charged for audit costs in 2003, and the budgeted amount for indirect cost is converted to a direct expenditure by the Department's cost allocation system.

11. **Section Number:** I. Federal-State MCH Block Grant Partnership

**Field Name:** AdminExpended

**Row Name:** Administration

**Column Name:** Expended

**Year:** 2004

**Field Note:**

IDHS budgets indirect costs for staff and audit costs as “administration” for the MCH Block Grant. The Block Grant was not charged for audit expenses in FFY’04. Indirect costs are included in direct expenditures by the Department's cost allocation system, so there are no expenditures for administration

## FORM NOTES FOR FORM 5

None

### FIELD LEVEL NOTES

1. **Section Number:** Main  
**Field Name:** DirectHCExpended  
**Row Name:** Direct Health Care Services  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**  
The reduction in spending for Direct Health Care services results from the underexpenditures by the School Based Health Centers and by DSCC.
2. **Section Number:** Main  
**Field Name:** DirectHCExpended  
**Row Name:** Direct Health Care Services  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**  
The \$2.0 million reduction in direct health care services was largely due to a reduction in expenditures for services to CSHCN.
3. **Section Number:** Main  
**Field Name:** EnablingExpended  
**Row Name:** Enabling Services  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**  
Underexpenditures in Enabling Services result from: first, underspending in Family Case Management; second, from budgeting for Healthy Families Illinois, Parents Too Soon and Teen Parent Services on the state fiscal year and reporting expenditures on the federal fiscal year; and third, from reductions in DSCC expenditures.
4. **Section Number:** Main  
**Field Name:** EnablingExpended  
**Row Name:** Enabling Services  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**  
The increase in expenditures for enabling services reflects the addition of \$15 million in expenditures for early intervention services to offset the use of \$15 million in Family Case Management funds as matching funds for the Medicaid program.
5. **Section Number:** Main  
**Field Name:** InfrastrBuildExpended  
**Row Name:** Infrastructure Building Services  
**Column Name:** Expended  
**Year:** 2003  
**Field Note:**  
The reduction in expenditures for infrastructure is largely the result of spending reductions by DSCC, underexpenditures for training by DHS and the conversion of indirect costs in the administration budget to direct costs through the DHS cost allocation plan.
6. **Section Number:** Main  
**Field Name:** InfrastrBuildExpended  
**Row Name:** Infrastructure Building Services  
**Column Name:** Expended  
**Year:** 2004  
**Field Note:**  
The additional expenses for infrastructure building resulted from the allocation of additional training expenditures and reallocation of IDPH's expenditures of MCH Block Grant funds from "population based" to "infrastructure building."

**Year:** 2006  
**Field Note:**  
Asian occurrent deliveries in Illinois include Asian Indian, Korean, Chinese, Filipino, Japanese and Vietnamese as defined by the U.S. Census.
- 3. Section Number:** I. Unduplicated Count By Race  
**Field Name:** DeliveriesTotal\_Hawaiian  
**Row Name:** Total Deliveries in State  
**Column Name:** Native Hawaiian or Other Pacific Islander  
**Year:** 2006  
**Field Note:**  
Pacific Islander occurrent deliveries in Illinois include Hawaiian, Guamanian and Samoan as defined by the U.S. Census. The U.S. Census defines "Other Asian" as a separate category of ethnicities. "Other Asian" and "Other Non White" deliveries have been included as Pacific Islander for this reporting form.
- 4. Section Number:** I. Unduplicated Count By Race  
**Field Name:** DeliveriesTitleV\_All  
**Row Name:** Title V Served  
**Column Name:** Total All Races  
**Year:** 2006  
**Field Note:**  
Total number of deliveries as reported in Form 7. The racial distribution for occurrent births has been applied to the total number served.
- 5. Section Number:** I. Unduplicated Count By Race  
**Field Name:** DeliveriesTitleXIX\_All  
**Row Name:** Eligible for Title XIX  
**Column Name:** Total All Races  
**Year:** 2006  
**Field Note:**  
Source: Illinois Department of Public Aid, 2003. White includes Hispanic ethnicity and Asian includes Pacific Islander race.
- 6. Section Number:** I. Unduplicated Count By Race  
**Field Name:** InfantsTotal\_All  
**Row Name:** Total Infants in State  
**Column Name:** Total All Races  
**Year:** 2006  
**Field Note:**  
Total births by residence and occurrence for Race of Child is no longer reported by the Center for Health Statistics, IDPH. At the request of the National Center for Health Statistics, the "race of child" algorithm changed/stopped for data year 1989. For comparative purposes, the algorithm was continued and reported in the Illinois MCHBG application for several years later. This is the first year the program has used "resident births" only, the difference of 1,506 infants whose births occurred in Illinois.
- 7. Section Number:** I. Unduplicated Count By Race  
**Field Name:** InfantsTotal\_Asian  
**Row Name:** Total Infants in State  
**Column Name:** Asian  
**Year:** 2006  
**Field Note:**  
Asian resident births in Illinois include Chinese, Filipino, and Japanese. Since the U.S. Census considers "Other Asian" as a separate ethnicity, it has been added to the Asian total deliveries and not to Pacific Islander Total Deliveries. There were more resident infants coded as "Other Asian" than mothers coded as occurrent deliveries. Since there are more Asians than Pacific Islanders in Illinois the value of 6,289 "Other Asian" infants are included in the Asian resident infant total. Otherwise Pacific Islander resident infants would be more than Asian resident infants.
- 8. Section Number:** I. Unduplicated Count By Race  
**Field Name:** InfantsTotal\_Hawaiian  
**Row Name:** Total Infants in State  
**Column Name:** Native Hawaiian or Other Pacific Islander  
**Year:** 2006  
**Field Note:**  
Pacific Islander resident births in Illinois include Hawaiian, Guamanian and Samoan as defined by the U.S. Census. The U.S. Census defines "Other Asian" as a separate category of ethnicities. "Other Asian" are not included in Pacific Islander resident births -- only "Other Non White" infants have been included for this reporting form.
- 9. Section Number:** I. Unduplicated Count By Race  
**Field Name:** InfantsTitleV\_All  
**Row Name:** Title V Served  
**Column Name:** Total All Races  
**Year:** 2006  
**Field Note:**  
The 2004 estimate for infants screened (number of newborn screening services billed to the Illinois State Laboratory) is reported in Form 6 and Form 7.
- 10. Section Number:** II. Unduplicated Count by Ethnicity  
**Field Name:** DeliveriesTotal\_TotalNotHispanic  
**Row Name:** Total Deliveries in State  
**Column Name:** Total Not Hispanic or Latino  
**Year:** 2006  
**Field Note:**  
Source is 2003 Birth Frequencies for Illinois Residents and Occurrences, IDPH.
- 11. Section Number:** II. Unduplicated Count by Ethnicity  
**Field Name:** DeliveriesTotal\_TotalHispanic

**Row Name:** Total Deliveries in State  
**Column Name:** Total Hispanic or Latino  
**Year:** 2006  
**Field Note:**  
Source is 2003 Birth Frequencies for Illinois Residents and Occurrences, IDPH.

12. **Section Number:** II. Unduplicated Count by Ethnicity  
**Field Name:** DeliveriesTotal\_NotReported  
**Row Name:** Total Deliveries in State  
**Column Name:** Ethnicity Not Reported  
**Year:** 2006  
**Field Note:**  
Source is the 2003 Birth Frequencies for Illinois Residents and Occurrences (occurrent births). There were 110 births categorized as "Not Classifiable."

None

### FIELD LEVEL NOTES

1. **Section Number:** Main  
**Field Name:** cname\_2  
**Row Name:** Name of contact person for state MCH hotline  
**Column Name:** FY  
**Year:** 2004  
**Field Note:**  
Change of marital status and preferred reference: Shelly Lambert to Michelle Sullivan
2. **Section Number:** Main  
**Field Name:** cnumber\_2  
**Row Name:** Contact Person's telephone number  
**Column Name:** FY  
**Year:** 2006  
**Field Note:**  
The Helpline office has moved. This 800 number is the quickest way to reach Michelle.
3. **Section Number:** Main  
**Field Name:** calls\_2  
**Row Name:** Number of calls received On the State MCH Hotline This reporting period  
**Column Name:** FY  
**Year:** 2004  
**Field Note:**  
Total represents calls received in Calendar Year 2004. In State Fiscal Year 2004 -- 38,030 calls were received.

**FORM 10**  
**TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT**  
**STATE PROFILE FOR FY 2006**  
[SEC. 506(A)(1)]  
**STATE: IL**

1. State MCH Administration:  
(max 2500 characters)

The Illinois Department of Human Services (IDHS) administers the Maternal and Child Health Services Block Grant. IDHS uses these funds to provide preventive and primary care services to women, infants, children and adolescents throughout the state. IDHS transfers 30% of the Block Grant funds to the University of Illinois at Chicago Division of Specialized Care for Children (DSCC) to operate the state's program for children with special health care needs. IDHS also transfers some Block Grant funds to the Illinois Department of Public Health (IDPH) to administer population-based services for pregnant women, infants and children, including perinatal care, metabolic and hearing screening of newborns, oral health services, screening for lead poisoning and vision and hearing screening of older children.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ 22,898,500
3. Unobligated balance (Line 2, Form 2)	\$ 460,900
4. State Funds (Line 3, Form 2)	\$ 32,433,600
5. Local MCH Funds (Line 4, Form 2)	\$ 1,375,900
6. Other Funds (Line 5, Form 2)	\$ 74,363,400
7. Program Income (Line 6, Form 2)	\$ 6,600,000
<b>8. Total Federal-State Partnership (Line 8, Form 2)</b>	<b>\$ 138,132,300</b>

9. Most significant providers receiving MCH funds:

Local health departments
Community health centers
Community-based organizations
Hospitals and universities

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	130,854
b. Infants < 1 year old	177,360
c. Children 1 to 22 years old	1,697,906
d. CSHCN	22,359
e. Others	132,651

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:  
(max 2500 characters)

Illinois' statewide initiatives and partnerships for direct health care and enabling services include the following: the Integration of WIC and Family Case Management, which has substantially improved pregnancy outcomes among low-income women; HealthWorks of Illinois, a unique health care system for children in state custody; Teen Pregnancy Prevention, which has contributed to the reduction in the teen fertility rates through an array of primary and secondary prevention services; CSHCN Care Coordination Services for children with physical disabilities as well as children who are technology-dependent.

b. Population-Based Services:  
(max 2500 characters)

Illinois' statewide initiatives and partnerships for population-based services include the following: the Universal Newborn Hearing Screening program, which is being implemented to ensure that every newborn in Illinois is screened for hearing loss and that those suspected of hearing loss receive appropriate diagnostic testing and intervention before six months of age; the Newborn Metabolic Screening program, which ensures that every newborn in Illinois is screened for more than 30 metabolic diseases, and that infants with suspected of having a disorder receive appropriate diagnostic testing and follow-up; and the Perinatal Care program, which ensures coordination of perinatal care services among regional hospital networks so that women and infants receive risk-appropriate care.

c. Infrastructure Building Services:  
(max 2500 characters)

Illinois' statewide initiatives and partnerships to strengthen the service delivery infrastructure include: leadership development programs with the UIC School of Public Health; Healthy Child Care Illinois, a network of Child Care Nurse Consultants who provide training, consultation and technical assistance to child care providers throughout the state; Collaborative Initiatives for CSHCN, including benefits management technical assistance, participation on the Interagency Coordinating Council on Transition, and publishing the family newsletter Special Addition; other CSHCN education and training, including the Internet-based continuing education program on the "Medical Home" concept, developed with state pediatric and family practice associations; providing quality improvement technical assistance to primary care practices; and developing a training initiative for primary care providers on newborn hearing screening; the All Our Kids Assurance Networks, to improve the service system for infants and toddlers.

12. The primary Title V Program contact person:

Name	Ralph M. Schubert
Title	Acting Associate Director
Address	535 W. Jefferson St.
City	Springfield

13. The children with special health care needs (CSHCN) contact person:

Name	Charles N. Onufer, M.D.
Title	Director, Div. of Specialized Care for Children
Address	2815 W. Washington St.
City	Springfield

## FORM NOTES FOR FORM 11

None

### FIELD LEVEL NOTES

1. **Section Number:** Performance Measure #1  
**Field Name:** PM01  
**Row Name:**  
**Column Name:**  
**Year:** 2002  
**Field Note:**  
The 2002 denominator is provisional (preliminary CY02 number of occurrent births). Source: Illinois Department of Public Health's laboratory billing report for CY02. The 2001 numerator is the reported number of newborns screened in 2001; the 2001 denominator is the final number of occurrent births in 2001.
2. **Section Number:** Performance Measure #1  
**Field Name:** PM01  
**Row Name:**  
**Column Name:**  
**Year:** 2003  
**Field Note:**  
Preliminary estimates reported last year in Form 6 reported that there were 179,050 newborns screened and preliminary occurrent births were 180,000. The percentage of 99.5 percent has been extrapolated to the final 2003 number of occurrent births.
3. **Section Number:** Performance Measure #1  
**Field Name:** PM01  
**Row Name:**  
**Column Name:**  
**Year:** 2004  
**Field Note:**  
The denominator is provisional (preliminary number of occurrent births, Illinois Department of Public Health). The numerator is the number of newborns screened as reported by the Illinois Department of Public Health's laboratory billing report. Each year the prior year's denominator is revised when the final number of occurrent births is available from the Illinois Department of Public Health.
4. **Section Number:** Performance Measure #2  
**Field Name:** PM02  
**Row Name:**  
**Column Name:**  
**Year:** 2002  
**Field Note:**  
The 2002 indicator is based on the State estimates from SLAITS.
5. **Section Number:** Performance Measure #2  
**Field Name:** PM02  
**Row Name:**  
**Column Name:**  
**Year:** 2003  
**Field Note:**  
The data reported in 2002 have pre-populated the data for 2003 for this performance measure.
6. **Section Number:** Performance Measure #2  
**Field Name:** PM02  
**Row Name:**  
**Column Name:**  
**Year:** 2004  
**Field Note:**  
The data reported in 2004 are pre-populated with the data from 2003 for this performance measure.
7. **Section Number:** Performance Measure #3  
**Field Name:** PM03  
**Row Name:**  
**Column Name:**  
**Year:** 2002  
**Field Note:**  
The 2002 indicator is based on the State estimates from SLAITS.
8. **Section Number:** Performance Measure #3  
**Field Name:** PM03  
**Row Name:**  
**Column Name:**  
**Year:** 2003  
**Field Note:**  
The data reported in 2002 have pre-populated the data for 2003 for this performance measure.
9. **Section Number:** Performance Measure #3  
**Field Name:** PM03  
**Row Name:**  
**Column Name:**  
**Year:** 2004  
**Field Note:**  
The data reported in 2004 are pre-populated with the data from 2003 for this performance measure.
10. **Section Number:** Performance Measure #4  
**Field Name:** PM04  
**Row Name:**  
**Column Name:**  
**Year:** 2002  
**Field Note:**  
The 2002 indicator is based on the State estimates from SLAITS.
11. **Section Number:** Performance Measure #4  
**Field Name:** PM04  
**Row Name:**  
**Column Name:**  
**Year:** 2003  
**Field Note:**

The data reported in 2002 have pre-populated the data for 2003 for this performance measure.

**12. Section Number:** Performance Measure #4

**Field Name:** PM04

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The data reported in 2004 are pre-populated with the data from 2003 for this performance measure.

**13. Section Number:** Performance Measure #5

**Field Name:** PM05

**Row Name:**

**Column Name:**

**Year:** 2002

**Field Note:**

The 2002 indicator is based on the State estimates from SLAITS.

**14. Section Number:** Performance Measure #5

**Field Name:** PM05

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

The data reported in 2002 have pre-populated the data for 2003 for this performance measure.

**15. Section Number:** Performance Measure #5

**Field Name:** PM05

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The data reported in 2004 are pre-populated with the data from 2003 for this performance measure.

**16. Section Number:** Performance Measure #6

**Field Name:** PM06

**Row Name:**

**Column Name:**

**Year:** 2002

**Field Note:**

Because only one of the States (Maine) met the NCHS standards for reliability for PM 6, the 2002 indicator is the national average except for Maine which has its State value noted.

**17. Section Number:** Performance Measure #6

**Field Name:** PM06

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

The data reported in 2002 have pre-populated the data for 2003 for this performance measure.

**18. Section Number:** Performance Measure #6

**Field Name:** PM06

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The data reported in 2004 are pre-populated with the data from 2003 for this performance measure.

**19. Section Number:** Performance Measure #7

**Field Name:** PM07

**Row Name:**

**Column Name:**

**Year:** 2002

**Field Note:**

Illinois has revised statistics from 1998 to 2002 to reflect data of vaccination coverage with 4:3:1:3. Source: Annual Q1/Q4 US National Immunization Survey, Estimated Vaccination Coverage with 4:3:1:3. The most recent data available for 2002 is period Q3/2001-Q2/2002 and is marked provisional on this form.

**20. Section Number:** Performance Measure #7

**Field Name:** PM07

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

Source: Estimated Vaccination Coverage with 4:3:1:3 Among Children 19-35 Months of Age by Race/Ethnicity -- National Immunization Survey. Final data are for children in the Q1/2003-Q4/2003 National Immunization Survey who were born between February 2000 and May 2002.

**21. Section Number:** Performance Measure #7

**Field Name:** PM07

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

Estimated Vaccination Coverage with 4:3:1:3 Among Children 19-35 Months of Age by Race/Ethnicity -- National Immunization Survey. Final data for a given year includes Q1-Q4; the most current 2004 data available are provisional, Q3/2003-Q2/2004. This report does not provide a numerator or denominator.

The Chicago project area received an award at the 39th annual WIC conference for the highest improvement in a metropolitan/urban area.

**22. Section Number:** Performance Measure #8

**Field Name:** PM08

**Row Name:**

**Column Name:**

**Year:** 2002

**Field Note:**

Teen births are vital records data. Illinois vital records data for 2002 were not available during the preparation of this application. The 2002 percent shown is an estimate based on the 2001 performance and the decline rate of teen births.

23. **Section Number:** Performance Measure #8  
**Field Name:** PM08  
**Row Name:**  
**Column Name:**  
**Year:** 2003  
**Field Note:**  
Teen births are vital records data. Sources: 2003 Birth File, Center for Health Statistics, IDPH and the 2003 Bridged-Race estimate for Illinois, provided by IDHS.
24. **Section Number:** Performance Measure #8  
**Field Name:** PM08  
**Row Name:**  
**Column Name:**  
**Year:** 2004  
**Field Note:**  
Vital records data were not available at the time this application was being prepared. The 2004 Annual Performance Objective will be changed to a rate of 22 per 1,000 teens.
25. **Section Number:** Performance Measure #9  
**Field Name:** PM09  
**Row Name:**  
**Column Name:**  
**Year:** 2002  
**Field Note:**  
Data is extrapolated to the number of 3rd grade children enrolled in year 2002.
26. **Section Number:** Performance Measure #9  
**Field Name:** PM09  
**Row Name:**  
**Column Name:**  
**Year:** 2003  
**Field Note:**  
In lieu of reporting the number of 3rd grade children in the State, the percent is the number of Illinois children ages 7, 8 and 9 enrolled in Medicaid/Kidcare in FFY2003 who received at least one sealant was reported. (Source: Illinois Department of Public Aid, Data Warehouse).  
  
In keeping with the detail sheet for this objective, the number of children in Grade 3 of Illinois public schools and facilities during school year 2003-04 is being substituted in FY2003. (Source: Illinois State Board of Education).
27. **Section Number:** Performance Measure #9  
**Field Name:** PM09  
**Row Name:**  
**Column Name:**  
**Year:** 2004  
**Field Note:**  
In keeping with the detail sheet for this objective, the number of children in Grade 3 of Illinois public schools and facilities during school year 2004-05 is being reported in FY2004. (Source: Illinois State Board of Education). IDPH estimates that 27 percent of those children are eligible to receive dental sealants through Medicaid and their Dental Sealant Program.
28. **Section Number:** Performance Measure #10  
**Field Name:** PM10  
**Row Name:**  
**Column Name:**  
**Year:** 2002  
**Field Note:**  
The 2002 vital records data was not available at the time this application was being prepared.  
  
The 95% Confidence Intervals for this rate during the last four years are as follows: 1998, 2.7 to 4.2; 1999, 2.8 to 3.2; 2000, 2.3 to 3.7; 2001, 2.3 to 3.6. Visual inspection of year to year variation in the rates suggests that changes from one year to the next are not statistically significant. These confidence intervals were calculated using the Poisson distribution.
29. **Section Number:** Performance Measure #10  
**Field Name:** PM10  
**Row Name:**  
**Column Name:**  
**Year:** 2003  
**Field Note:**  
The number of 2002 deaths and the rate were provided by the Illinois Department of Public Health, Center for Health Statistics and were used to extrapolate the provisional denominator (rounded up). Using the 2002 Illinois Bridged-Race Census Estimates for children less than age 14 (2,534,267) the rate is 3.0.
30. **Section Number:** Performance Measure #10  
**Field Name:** PM10  
**Row Name:**  
**Column Name:**  
**Year:** 2004  
**Field Note:**  
The 2003 fatal crash data as reported by the Illinois Department of Transportation are new provisional data for the numerator effective 6-2005. These data will be replaced with final numbers from IDPH as they become available. The denominator is the 2003 Bridged Race Estimate for Illinois.
31. **Section Number:** Performance Measure #11  
**Field Name:** PM11  
**Row Name:**  
**Column Name:**  
**Year:** 2003  
**Field Note:**  
The Ross Survey for 2003 indicates a percentage. The numerator has been extrapolated to the total occurrent births in 2003. See the application narrative for a comparison of Ross and other survey results.
32. **Section Number:** Performance Measure #11  
**Field Name:** PM11  
**Row Name:**  
**Column Name:**  
**Year:** 2004  
**Field Note:**  
The Ross Survey percentage for 2004 was not available at the time this application was being prepared.
33. **Section Number:** Performance Measure #12

**Field Name:** PM12

**Row Name:**

**Column Name:**

**Year:** 2002

**Field Note:**

It is estimated that 60 percent of newborns were screened for hearing in 2001.

**34. Section Number:** Performance Measure #12

**Field Name:** PM12

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

Revised note for CY2003: This was the first year of the mandated law for universal newborn hearing screening in Illinois. Of the 163,621 births reported by participating hospitals, 159,805 infants (or 98 percent) were screened. "Annual performance" compares the reported number screened to the number of occurrent births.

**35. Section Number:** Performance Measure #12

**Field Name:** PM12

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

In 2004 the number of newborns screened has increased 6 percent from last year. The denominator is the preliminary estimate of occurrent births for 2004 as reported in Form 6.

**36. Section Number:** Performance Measure #13

**Field Name:** PM13

**Row Name:**

**Column Name:**

**Year:** 2002

**Field Note:**

The latest data reported in column year 2002 corresponds to the data released for the 3-year-averages of 2001, 2002 and 2003 (Source: Low Income Uninsured Children by State report that is released by the U.S. Census Bureau). The state has routinely reported this data in the column that corresponds to the middle year.

**37. Section Number:** Performance Measure #13

**Field Name:** PM13

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

The final data for FY2003 will be reported with the release of the Low Income Uninsured Children by State: 2002, 2003 and 2004. Number and percent of children less than age 19 at or below 200 percent of poverty by state. U.S. Census Bureau. The source of the provisional data for FY2003 is Table HI10. Number and percent of children under 19 at or below 200% of poverty by health insurance coverage and state: 2003. U.S. Census Bureau, Current Population Survey, 2004 March Supplement.

**38. Section Number:** Performance Measure #13

**Field Name:** PM13

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The final data for 2004 will be reported with the release of the Low Income Uninsured Children by State: 2003, 2004 and 2005. Number and percent of children less than age 19 at or below 200 percent of poverty by state. U.S. Census Bureau. The source of the provisional data for FY2004 is Table HI10 (not available at the time this application is being prepared). Number and percent of children under 19 at or below 200% of poverty by health insurance coverage and state: 2004. U.S. Census Bureau, Current Population Survey, 2005 March Supplement. The Annual Performance Objective for 2004 will be changed to 6.7 percent.

**39. Section Number:** Performance Measure #14

**Field Name:** PM14

**Row Name:**

**Column Name:**

**Year:** 2002

**Field Note:**

Source: CMS-416 Annual EPSDT Participation Report, FFY2003.

New Source Detail: Total Eligibles Receiving at Least One Initial or Periodic Screen (Line 9) of Total Eligibles Who Should Receive at Least One Initial or Periodic Screen (Line 8). The resulting annual indicator matches the Participation Ratio (Line 10) of the report.

**40. Section Number:** Performance Measure #14

**Field Name:** PM14

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

Source: CMS-416 Annual EPSDT Participation Report, FFY2003.

New Source Detail: Total Eligibles Receiving at Least One Initial or Periodic Screen (Line 9) of Total Eligibles Who Should Receive at Least One Initial or Periodic Screen (Line 8). The resulting annual indicator matches the Participation Ratio (Line 10) of the report.

The revised proportion will replace past reporting for this measure of Total Screens Received (Line 6) and Total Individuals Eligible for EPSDT (Line 1) of the above-named report. These resulting percentages are higher. The Annual Performance Objectives for FY2003 and 2004 will be reset at 73.0, the most current estimate of participant ratio. FY2005-2009 have also been reset accordingly.

Because TVIS restricts revision of data for prior years, FY2000 and 2001 revised proportions will be sent to the HRSA Call Center for update to the Illinois database.

**41. Section Number:** Performance Measure #14

**Field Name:** PM14

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

Data for 2004 were not available at the time this application was being prepared. The 2004 Annual Performance Objective will be changed to 74 percent.

**FORM NOTES FOR FORM 13**

None

**FIELD LEVEL NOTES**

None

**FORM 14**  
**LIST OF MCH PRIORITY NEEDS**

[Sec. 505(a)(5)]

**STATE: IL FY: 2006**

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Reduce racial disparities in infant mortality
2. Reduce the rate of unintended pregnancy
3. Reduce the incidence of sexually transmitted infections, including HIV
4. Reduce adolescent risk-taking behavior and racial and ethnic disparities in teen births
5. Promote health growth and development of children
6. Improve access to preventive and primary health care services
7. Improve access to mental health services
8. Improve access for CSHCN to quality health care through Medical Homes
9. Improve access for YSHCN to transition services
10. Improve linkages to needed services for CSHCN eligible for SSI

**FORM NOTES FOR FORM 15**

Illinois is not requesting technical assistance in any of the 6 possible categories for assistance.

**FIELD LEVEL NOTES**

None

**FORM 16**  
**STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET**  
**STATE: IL**

SP # 1

**PERFORMANCE MEASURE:**

The proportion of live births who receive adequate prenatal care, as measured by the Modified Kessner Index

**STATUS:**

Active

**GOAL**

To identify pregnant women and to provide adequate prenatal services to these women.

**DEFINITION**

**Numerator:**

The number of women who received adequate prenatal care as measured by the Modified Kessner Index.

**Denominator:**

The number of resident live births.

**Units:** 100   **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

**DATA SOURCES AND DATA ISSUES**

Vital Records

**SIGNIFICANCE**

Proper prenatal care significantly reduces the difficulties of premature birth, low and very low birth weight, and infant mortality. By reducing the incidence of these adverse events other causes of disability and death among infants (e.g., neuodevelopmental conditions, learning and behavior problems, respiratory distress syndrome and disorders related to premature birth) are mitigated.

SP # 2

**PERFORMANCE MEASURE:**

The proportion of women experiencing a live birth who have had a live birth in the prior eighteen months

**STATUS:**

Active

**GOAL**

To provide family planning services to reduce the number of women who have a subsequent pregnancy in less than eighteen months of the index pregnancy.

**DEFINITION**

The measure is a proportion of subsequent live births.

**Numerator:**

The number of births to women who experienced a documented live birth (as indicated by the date of the live birth on the index child's birth certificate) within the preceding 18 months.

**Denominator:**

The number of women experiencing a subsequent live birth that occur within a "known" interval. The "unknown" interval births are subtracted from the total "second and up" live births.

**Units:** 100 **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

**DATA SOURCES AND DATA ISSUES**

Illinois Vital Records

**SIGNIFICANCE**

Unintended pregnancies have adverse consequences on the family and society. Miscarriage, stillbirth and infant mortality are all more frequent as a result of family planning failures. The State MCH program provides many services to increase the effectiveness of family planning and thereby reduce the number of unintended pregnancies.

SP # 3

**PERFORMANCE MEASURE:**

The incidence of maltreatment of children younger than age 18

**STATUS:**

Active

**GOAL**

To reduce the number of children under 18 years of age who are victims of child abuse and neglect.

**DEFINITION**

"Indicated" means credible evidence was gathered which would cause a reasonable person to believe a child was abused or neglected.

**Numerator:**

The number of indicated child victims under 18 years of age.

**Denominator:**

The number of children under 18 years of age.

**Units:** 1000 **Text:** 2

**HEALTHY PEOPLE 2010 OBJECTIVE**

**DATA SOURCES AND DATA ISSUES**

Annual Report published by the Illinois Department of Children and Family Services. The denominator is obtained from the 2000 U.S. Census.

**SIGNIFICANCE**

Child abuse threatens the health of many children. Violent and abusive behaviors have been increasingly recognized as an important public health problem. Illinois' current child abuse rate is well below the Healthy People 2000 objective level. This is a critical measure for the State that will continue to receive attention.

SP # 5

**PERFORMANCE MEASURE:**

The proportion of CSHCN ages 14 and above and their parents who receive comprehensive transition planning services to promote awareness of adult services

**STATUS:**

Active

**GOAL**

Provide comprehensive transition planning for CSHCN ages 14 and above and their parents

**DEFINITION**

Staff will develop and test comprehensive transition planning materials. Upon training of staff, comprehensive transition planning will be implemented statewide for CSHCN for ages 14 and above who are interested in this training.

**Numerator:**

Number of CSHCN ages 14 and above and parents who receive comprehensive transition planning with local care coordinators for the reporting year

**Denominator:**

Number of CSHCN ages 14-21 served throughout the state

**Units:** 100 **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

**DATA SOURCES AND DATA ISSUES**

Children's Health Management Information System, Special Report

**SIGNIFICANCE**

Based on the 1990 Transition Survey of DSCC clients and 1996 Client Survey, approximately 50% of those CSHCN and their families surveyed expressed a need for assistance in transition planning to adult services. DSCC staff believe that increased knowledge about specific transition services would enable them to better assist CSHCN plan for adult life. Students eligible for services under Part B of IDEA receive transition services. Not all CSHCN are eligible for Part B services but would benefit from transition planning to prepare for adult services, particularly health care. Families want to know how to obtain and pay for medical care when a child transitions to adult services as well as options for independent living, recreation and socialization. A comprehensive, coordinated effort is needed to assist families of CSHCN be better prepared for adult life.

SP # 8

**PERFORMANCE MEASURE:**

The proportion of women and children up to 22 years of age who receive appropriate genetic testing, counseling, education and follow-up services

**STATUS:**

Active

**GOAL**

By 2000, increase the proportion of women and children up to 22 years of age who receive appropriate genetic testing, counseling, education and follow-up services to 5% of the population of women of childbearing age and children in the state.

**DEFINITION**

Clinical genetic centers will be given grants to provide genetic testing, diagnosis, counseling, treatment and long range management to families who have a genetic concern. Local health departments will be given grants to offer accessible services for the target population and to provide tracking, education, referral, and follow-up services to families in need. Pediatric hematologists will be given grants to provide diagnostic testing, genetic counseling and medical care to infants and children with a sickling hemoglobinopathy or trait.

**Numerator:**

The number of women of child-bearing age and children up to age 22 who received appropriate genetic testing, counseling, education and follow-up services.

**Denominator:**

The total number of women of child-bearing age (13-44) and the total number of children up to age 22 years in the state.

**Units:** 100 **Text:** 1

**HEALTHY PEOPLE 2010 OBJECTIVE**

**DATA SOURCES AND DATA ISSUES**

Genetic Grant Quarterly Reports and 2000 Census Data

**SIGNIFICANCE**

New discoveries are rapidly changing traditional medicine. Clinical genetics is becoming one of the most important preventive treatment modalities of the future. Preconception/prenatal genetic counseling, prenatal testing, newborn screening, and early diagnosis can help prevent premature death, excessive morbidity, mental retardation, and other developmental disabilities; and at the same time, increase the quality of life of those with a genetic disorder. An estimated 50-60% of first trimester miscarriages and 7% of stillbirths and neonatal deaths are due to a chromosome abnormality. Annually, more than 5,000 infants are born with a major birth defect and over 30% of pediatric hospitalizations are due to a genetic disease. As genetic components of more disorders are identified through work completed on the Human Genome Project, these rates will continue to increase.

SP # 9

**PERFORMANCE MEASURE:**

The prevalence of Early Childhood Caries (ECC)

**STATUS:**

Active

**GOAL**

To reduce prevalence of Early Childhood Caries

**DEFINITION**

The proportion of two through four-year-olds with dental caries

**Numerator:**

The numerator is estimated on the basis of a 2003 sample of children in the WIC program.

**Denominator:**

The denominator is the number children who participated in the study, extrapolated to the estimated number of two, three and four-year-olds in Illinois.

**Units:** 100 **Text:** 1

**HEALTHY PEOPLE 2010 OBJECTIVE**

21-1, Early Childhood Caries

Reduce the proportion of young children with dental caries experience in thier primary teeth.

**DATA SOURCES AND DATA ISSUES**

Performance is estimated from a survey of children participating in the WIC program.

**SIGNIFICANCE**

ECC/BBTD is a severe form of dental caries that can lead to the destruction of primary teeth. It is frequently caused by prolonged use of nursing bottles containing anything but water. Continual use of a sweetened pacifier and/or breast-feeding at will throughout the night can also cause ECC/BBTD. This form of disease is preventable with appropriate educational interventions. Prevalence in Illinois ranges from 11% to 15% with close to 73% of all children surveyed needing immediate dental care.

SP # 11

**PERFORMANCE MEASURE:**

The percent of teen parenting program participants who graduate from high school or receive their GED

**STATUS:**

Active

**GOAL**

To increase the proportion of participants in teen parenting programs who graduate from high school or receive their GED.

**DEFINITION**

**Numerator:**

The number of teen parents age 18 to 21 who graduated from high school or obtained their GED during the fiscal year.

**Denominator:**

The number of teen parents age 18 to 21 receiving program services who, during the fiscal year, have been/are enrolled in high school/GED preparation classes.

**Units:** 100 **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

**DATA SOURCES AND DATA ISSUES**

**SIGNIFICANCE**

Consistent with Department philosophy, there is an emphasis on increasing the opportunity for education and subsequent employment for TANF-enrolled persons and persons at risk for needing TANF. The inclusion of specific initiatives to increase the likelihood of successful high school completion for young parents is a special focus of the Department.

SP # 12

**PERFORMANCE MEASURE:**

The number of MCH and CSHCN program staff who participate in leadership development programs.

**STATUS:**

Active

**GOAL**

To increase the leadership skills of MCH and CSHCN program staff at the state, regional and local levels.

**DEFINITION**

The number of people who participate in either the Illinois Institute for Maternal and Child Health Leadership or the Illinois Maternal and Child Health Data Use Academy. This performance measure took effect in FFY'04. IDHS has planned for 30 participants each year for the next 3 years.

**Numerator:**

The actual number of participants each year.

**Denominator:**

IDHS has planned for 30 participants each year.

**Units:** 100 **Text:** 1

**HEALTHY PEOPLE 2010 OBJECTIVE**

23-10

Increase the proportion of Federal, Tribal, State, and local public health agencies that provide continuing education to develop competency in essential public health services for their employees

**DATA SOURCES AND DATA ISSUES**

Data on enrollement in the two leadership institutes are used to measure performance.

**SIGNIFICANCE**

The IIMCHL address the Public Health Foundation's core competencies of Policy Development and Program Planning, Communication and Leadership and Systems Thinking. The DUA addresses the core competencies of Assessment, Policy Development and Program Planning, Communication, Community Dimensions of Practice and Leadership and Systems Thinking.

SP # 13

**PERFORMANCE MEASURE:**

The prevalence of childhood lead poisoning

**STATUS:**

Active

**GOAL**

To reduce the prevalence of childhood lead poisoning.

**DEFINITION**

The definition of lead poisoning is a confirmed blood lead level of 10 mcg/dL and above. The prevalence rate is determined by dividing the number of children with blood lead levels of 10 mcg/dL and above by the total number of children tested for lead poisoning during a time period.

**Numerator:**

The number of children with blood lead levels  $\geq$  10 mcg/dL.

**Denominator:**

The total number of children tested during a time period.

**Units:** 100 **Text:** 1

**HEALTHY PEOPLE 2010 OBJECTIVE**

Environmental Health 5-13, 11.

Reduce the prevalence of blood lead levels exceeding 10  $\mu$ g/dL to 0 in children aged 1-5.

**DATA SOURCES AND DATA ISSUES**

Data used comes from the IL Lead Poisoning Program data base. Approximately half of the data is transferred from the State Lab where specimens are analyzed. The remainder comes from private labs who are mandated reporters, however there is no enforcement mechanism. Therefore, collection of data from private labs may be incomplete.

**SIGNIFICANCE**

Young children and the developing fetus, particularly, are at risk for lead poisoning. It damages the body internally and negatively affects the formation of red blood cells. Very high levels of lead can cause seizures, coma and death. If a child has been exposed to high levels of lead, he or she may suffer severe mental retardation. Even at lower levels of exposure, a child can suffer from developmental delay, lower IQ, hyperactivity, learning disabilities, behavioral problems, impaired hearing and stunted growth. Compounding the problem of lead poisoning is the fact that children who have elevated blood lead levels early in their lives may have no symptoms, which means that parents can be unaware of the condition.

**Row Name:**  
**Column Name:**  
**Year:** 2004  
**Field Note:**  
Data for 2004 were not available at the time the 2006 application was being prepared.
7. **Section Number:** Health Systems Capacity Indicator #07  
**Field Name:** HSC07  
**Row Name:**  
**Column Name:**  
**Year:** 2004  
**Field Note:**  
The 2004 CMS416 was not available at time this application was being prepared. It is not known when it will be released from IDPA.
8. **Section Number:** Health Systems Capacity Indicator #08  
**Field Name:** HSC08  
**Row Name:**  
**Column Name:**  
**Year:** 2003  
**Field Note:**  
The annual indicator is an estimate that includes two populations served by DSCC. 3392 children who were newly eligible for SSI received information and referral services. Approximately 1880 SSI eligible children received services from DSCC through the Core and Home Care Program. (This number has not been available previously.) Some number of children could be dually counted in these two groups.
9. **Section Number:** Health Systems Capacity Indicator #08  
**Field Name:** HSC08  
**Row Name:**  
**Column Name:**  
**Year:** 2004  
**Field Note:**  
The annual indicator is an estimate that includes two populations served by DSCC. At least 3,360 children, who were newly eligible for SSI, received information and referral services. Approximately 1,741 SSI eligible children received services from the DSCC program. Some number of children may be a duplicative count among these two groups.

**FORM 18**

## FORM NOTES FOR FORM 20

None

### FIELD LEVEL NOTES

**1. Section Number:** Health Status Indicator #01A

**Field Name:** HSI01A

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The 2004 data were not available at the time the 2006 application was submitted. There is no timeframe for availability of these data.

TVIS requires an estimate; therefore the estimate is provisional and is the same value as reported for year FY2003.

**2. Section Number:** Health Status Indicator #01B

**Field Name:** HSI01B

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The 2004 data were not available at the time the 2006 application was submitted. There is no timeframe for availability of these data.

TVIS requires an estimate; therefore the estimate is provisional and is the same value as reported for year FY2003.

**3. Section Number:** Health Status Indicator #02A

**Field Name:** HSI02A

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The 2004 data were not available at the time the 2006 application was submitted. There is no timeframe for availability of these data.

TVIS requires an estimate; therefore the estimate is provisional and is the same value as reported for year FY2003.

**4. Section Number:** Health Status Indicator #02B

**Field Name:** HSI02B

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The 2004 data were not available at the time the 2006 application was submitted. There is no timeframe for availability of these data.

TVIS requires an estimate; therefore the estimate is provisional and is the same value as reported for year FY2003.

**5. Section Number:** Health Status Indicator #03A

**Field Name:** HSI03A

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

The 2003 vital records data were not available at the time the 2006 application was being prepared. Alternatively, hospital deaths with a cause of unintentional injury is being reported. Source: IDPH, Office of Policy, Planning and Statistics, Division of Health Policy, Facility Discharge Data

These data are considered "provisional" and not part of the trend for this measure. The final data will be reported next year when the 2003 mortality file is available.

**6. Section Number:** Health Status Indicator #03A

**Field Name:** HSI03A

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The 2004 vital records data were not available at time the 2006 application was being prepared. Alternatively, hospital deaths with a cause of unintentional injury is being reported. Source: IDPH, Office of Policy, Planning and Statistics, Division of Health Policy, Facility Discharge Data.

These data are considered "provisional" and not part of the trend for this measure. The final data will be reported when the 2004 mortality file is available.

**7. Section Number:** Health Status Indicator #03B

**Field Name:** HSI03B

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

The data are provisional since they did not come from the same source (the Center for Health Statistics, Illinois Department of Public Health) as reported in previous years. The 2003 vital records data were not available at the time the 2006 application was being prepared.

The data are occupant and non occupant fatalities among ages 0-14 (source: Fatal Crash Data 2003, Illinois Crash Facts & Statistics, Illinois Department of Transportation, Fatalities by Person Type, Age and Gender). These data are considered "provisional" and not part of the trend for this measure. The final data will be reported when the 2003 mortality file is available from IDPH.

Numerator: The most recent available data for vehicle fatalities is for 2003 and is being reported for the 2006 application.

Denominator: The 2003 Bridged-Race Illinois Census estimates were developed by the U.S. Census Bureau for the National Center for Health Statistics.

**8. Section Number:** Health Status Indicator #03B

**Field Name:** HSI03B

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The most recent fatal crash data in Illinois is for 2003 and is again being reported for year 2004 (since TVIS requires an estimate). These data are considered "provisional" and not part of the trend for this measure. The final data will be reported when the 2004 mortality file is available.

**9. Section Number:** Health Status Indicator #03C

**Field Name:** HSI03C

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

Source: Fatal Crash Data, 2003 Crash Facts & Statistics, Illinois Department of Transportation. Total fatalities include total occupants and non occupants involved in a motor vehicle accident. The 2003 Bridged-Race estimates of the age group for the denominator. These data are considered 'provisional' and will be replaced when the 2003 vital records data are available from IDPH.

10. **Section Number:** Health Status Indicator #03C

**Field Name:** HSI03C

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

There are no data available for 2004. Since TVIS requires an estimate, the value for 2003 is again being reported. These data are considered 'provisional' and will be replaced when the 2004 vital records data become available.

11. **Section Number:** Health Status Indicator #04A

**Field Name:** HSI04A

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

The number of non-fatal unintentional injuries is hospital discharge data. Source: IDPH, Office of Policy, Planning and Statistics, Division of Health Policy, Facility Discharge Data.

12. **Section Number:** Health Status Indicator #04A

**Field Name:** HSI04A

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The number of non-fatal unintentional injuries is hospital discharge data. Source: IDPH, Office of Policy, Planning and Statistics, Division of Health Policy, Facility Discharge Data.

13. **Section Number:** Health Status Indicator #04B

**Field Name:** HSI04B

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

The number of non-fatal motor vehicle injuries is hospital discharge data. Source: IDPH, Office of Policy, Planning and Statistics, Division of Health Policy, Facility Discharge Data.

14. **Section Number:** Health Status Indicator #04B

**Field Name:** HSI04B

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The number of non-fatal motor vehicle injuries is hospital discharge data. Source: IDPH, Office of Policy, Planning and Statistics, Division of Health Policy, Facility Discharge Data.

15. **Section Number:** Health Status Indicator #04C

**Field Name:** HSI04C

**Row Name:**

**Column Name:**

**Year:** 2003

**Field Note:**

The number of non-fatal motor vehicle injuries is hospital discharge data. Source: IDPH, Office of Policy, Planning and Statistics, Division of Health Policy, Facility Discharge Data.

16. **Section Number:** Health Status Indicator #04C

**Field Name:** HSI04C

**Row Name:**

**Column Name:**

**Year:** 2004

**Field Note:**

The number of non-fatal motor vehicle injuries is hospital discharge data. Source: IDPH, Office of Policy, Planning and Statistics, Division of Health Policy, Facility Discharge Data.

## FORM NOTES FOR FORM 21

HSI#06A&B: Demographics (Total Population). The source for these data are estimates from the 2003 Illinois bridged-race census, developed by the U.S. Census Bureau for the National Center for Health Statistics.

HSI#08A&B: Demographics (Total Deaths). The 2003 death file from the Center for Health Statistics, IDPH, was not available at the time this application was submitted. There is not timeframe for obtaining these data. The 2002 vital statistics are again being reported in the 2006 application.

### FIELD LEVEL NOTES

1. **Section Number:** Indicator 07A  
**Field Name:** Race\_Women35  
**Row Name:** Women 35 or older  
**Column Name:**  
**Year:** 2006  
**Field Note:**  
Unknown race is reported in the appropriate column; since there is no row for unknown age it has been added to the cell for White women aged 35+. The accurate number of births in 2003 for women 35+ was 22,393 and 18 White women of unknown age had a birth in 2003.
2. **Section Number:** Indicator 07B  
**Field Name:** Ethnicity\_Women35  
**Row Name:** Women 35 or older  
**Column Name:**  
**Year:** 2006  
**Field Note:**  
Since there is no row for unknown age it has been added to the cell for Non Hispanic women aged 35+. The accurate number of births in 2003 for Non Hispanic women 35+ was 4,298 and 11 Non Hispanic women of unknown age had a birth in 2003. The accurate number of births in 2003 for Hispanic women 35+ was 12,336 and 12 Hispanic women of unknown age had a birth in 2003.

**11. Section Number:** Indicator 09B**Field Name:** HSIethnicity\_MedicaidNo**Row Name:** Number enrolled in Medicaid**Column Name:****Year:** 2006**Field Note:**

Source: The 2004 data are from Medical Assistance Programs, Healthcare and Family Services, formerly the Department of Public Aid.

**12. Section Number:** Indicator 09B**Field Name:** HSIethnicity\_FoodStampNo**Row Name:** Number enrolled in food stamp program**Column Name:****Year:** 2006**Field Note:**

The Department of Human Services, Food Stamp Program, reported Hispanic as race (3/11/05). Hispanic has been recorded in both "More than one race reported" column and "Total Hispanic or Latino" column.

**13. Section Number:** Indicator 10**Field Name:** Metropolitan**Row Name:** Living in metropolitan areas**Column Name:****Year:** 2006**Field Note:**

The reporting form does not include metropolitan in the total so metropolitan residents are added to the urban resident total.

Source: Economic Research Service (ERS), USDA, Rural-Urban Continuum Codes for IL Counties. The ERS Codes for metropolitan are 1,2 and 3. The 2000 census was substituted with the 2003 Bridged-Race estimates for children 0-19 by county.

**14. Section Number:** Indicator 10**Field Name:** Urban**Row Name:** Living in urban areas**Column Name:****Year:** 2006**Field Note:**

Data for urban, rural and frontier areas sum to the total. Metropolitan residents are included in the urban total. Source: Economic Research Service (ERS), USDA, Rural-Urban Continuum Codes for IL Counties. The 2000 census was substituted with the 2003 bridged-race estimates for children 0-19 by county. The ERS Codes for urban are 4,5,6 and 7.

According to MCHB, this form operates correctly based on their given system requirements which are based on census definitions. Metropolitan and urban statistics overlap so population counts could create duplicate counting. According to these requirements there are 3,570,002 children living in urban Illinois. According to USDA's ERS, there are 416,231 children living in urban Illinois.

**15. Section Number:** Indicator 10**Field Name:** Rural**Row Name:** Living in rural areas**Column Name:****Year:** 2006**Field Note:**

Source: Economic Research Service (ERS), USDA, Rural-Urban Continuum Codes for IL Counties. The 2000 census was substituted with the 2003 bridged-race estimates for children 0-19 by county. The ERS Codes for rural are 8 and 9.

**16. Section Number:** Indicator 11**Field Name:** S11\_total**Row Name:** Total Population**Column Name:****Year:** 2006**Field Note:**

The 2003 Bridged-Race Illinois Census estimates were developed by the U.S. Census Bureau for the National Center for Health Statistics.

**17. Section Number:** Indicator 11**Field Name:** S11\_50percent**Row Name:** Percent Below: 50% of poverty**Column Name:****Year:** 2006**Field Note:**

**Row Name:** Number living in foster home care

**Column Name:**

**Year:** 2006

**Field Note:**

The Department of Children and Family Services reported Hispanic as race (3/18/05). Hispanic has been recorded in both "More than one race reported" column and "Total Hispanic or Latino" column.

**NEW STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET**  
**STATE: IL**

SP # 1

**PERFORMANCE MEASURE:**

The incidence of maltreatment of children younger than age 18

**GOAL**

To reduce the number of children under 18 years of age who are victims of child abuse and neglect.

**DEFINITION**

"Indicated" means credible evidence was gathered which would cause a reasonable person to believe a child was abused or neglected.

**Numerator:**

The number of indicated child victims under 18 years of age.

**Denominator:**

The number of children under 18 years of age.

**Units:** 1000 **Text:** 2

**HEALTHY PEOPLE 2010 OBJECTIVE**

**DATA SOURCES AND DATA ISSUES**

Annual Report published by the Illinois Department of Children and Family Services. The denominator is obtained from the 2000 U.S. Census.

**SIGNIFICANCE**

Child abuse threatens the health of many children. Violent and abusive behaviors have been increasingly recognized as an important public health problem. Illinois' current child abuse rate is well below the Healthy People 2000 objective level. This is a critical measure for the State that will continue to receive attention.

**OBJECTIVE**

2006	2007	2008	2009	2010
7.6	7.5	7.5	7.5	7.5

SP # 2

**PERFORMANCE MEASURE:**

The proportion of CSHCN ages 14 and above and their parents who receive comprehensive transition planning services to promote awareness of adult services

**GOAL**

Provide comprehensive transition planning for CSHCN ages 14 and above and their parents

**DEFINITION**

Staff will develop and test comprehensive transition planning materials. Upon training of staff, comprehensive transition planning will be implemented statewide for CSHCN for ages 14 and above who are interested in this training.

**Numerator:**

Number of CSHCN ages 14 and above and parents who receive comprehensive transition planning with local care coordinators for the reporting year

**Denominator:**

Number of CSHCN ages 14-21 served throughout the state

**Units:** 100 **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

**DATA SOURCES AND DATA ISSUES**

Children's Health Management Information System, Special Report

**SIGNIFICANCE**

Based on the 1990 Transition Survey of DSCC clients and 1996 Client Survey, approximately 50% of those CSHCN and their families surveyed expressed a need for assistance in transition planning to adult services. DSCC staff believe that increased knowledge about specific transition services would enable them to better assist CSHCN plan for adult life. Students eligible for services under Part B of IDEA receive transition services. Not all CSHCN are eligible for Part B services but would benefit from transition planning to prepare for adult services, particularly health care. Families want to know how to obtain and pay for medical care when a child transitions to adult services as well as options for independent living, recreation and socialization. A comprehensive, coordinated effort is needed to assist families of CSHCN be better prepared for adult life.

**OBJECTIVE**

2006	2007	2008	2009	2010
60				

SP # 3

**PERFORMANCE MEASURE:**

The proportion of women and children up to 22 years of age who receive appropriate genetic testing, counseling, education and follow-up services

**GOAL**

By 2000, increase the proportion of women and children up to 22 years of age who receive appropriate genetic testing, counseling, education and follow-up services to 5% of the population of women of childbearing age and children in the state.

**DEFINITION**

Clinical genetic centers will be given grants to provide genetic testing, diagnosis, counseling, treatment and long range management to families who have a genetic concern. Local health departments will be given grants to offer accessible services for the target population and to provide tracking, education, referral, and follow-up services to families in need. Pediatric hematologists will be given grants to provide diagnostic testing, genetic counseling and medical care to infants and children with a sickling hemoglobinopathy or trait.

**Numerator:**

The number of women of child-bearing age and children up to age 22 who received appropriate genetic testing, counseling, education and follow-up services.

**Denominator:**

The total number of women of child-bearing age (13-44) and the total number of children up to age 22 years in the state.

**Units:** 100 **Text:** 1

**HEALTHY PEOPLE 2010 OBJECTIVE**

**DATA SOURCES AND DATA ISSUES**

Genetic Grant Quarterly Reports and 2000 Census Data

**SIGNIFICANCE**

New discoveries are rapidly changing traditional medicine. Clinical genetics is becoming one of the most important preventive treatment modalities of the future. Preconception/prenatal genetic counseling, prenatal testing, newborn screening, and early diagnosis can help prevent premature death, excessive morbidity, mental retardation, and other developmental disabilities; and at the same time, increase the quality of life of those with a genetic disorder. An estimated 50-60% of first trimester miscarriages and 7% of stillbirths and neonatal deaths are due to a chromosome abnormality. Annually, more than 5,000 infants are born with a major birth defect and over 30% of pediatric hospitalizations are due to a genetic disease. As genetic components of more disorders are identified through work completed on the Human Genome Project, these rates will continue to increase.

**OBJECTIVE**

2006	2007	2008	2009	2010
------	------	------	------	------

SP # 4

**PERFORMANCE MEASURE:**

The prevalence of Early Childhood Caries (ECC)

**GOAL**

To reduce prevalence of Early Childhood Caries

**DEFINITION**

The proportion of two through four-year-olds with dental caries

**Numerator:**

The numerator is estimated on the basis of a 2003 sample of children in the WIC program.

**Denominator:**

The denominator is the number children who participated in the study, extrapolated to the estimated number of two, three and four-year-olds in Illinois.

**Units:** 100 **Text:** 1

**HEALTHY PEOPLE 2010 OBJECTIVE**

21-1, Early Childhood Caries

Reduce the proportion of young children with dental caries experience in thier primary teeth.

**DATA SOURCES AND DATA ISSUES**

Performance is estimated from a survey of children participating in the WIC program.

**SIGNIFICANCE**

ECC/BBTD is a severe form of dental caries that can lead to the destruction of primary teeth. It is frequently caused by prolonged use of nursing bottles containing anything but water. Continual use of a sweetened pacifier and/or breast-feeding at will throughout the night can also cause ECC/BBTD. This form of disease is preventable with appropriate educational interventions. Prevalence in Illinois ranges from 11% to 15% with close to 73% of all children surveyed needing immediate dental care.

**OBJECTIVE**

2006	2007	2008	2009	2010
32	32	32	32	32

SP # 5

**PERFORMANCE MEASURE:**

The prevalence of childhood lead poisoning

**GOAL**

To reduce the prevalence of childhood lead poisoning.

**DEFINITION**

The definition of lead poisoning is a confirmed blood lead level of 10 mcg/dL and above. The prevalence rate is determined by dividing the number of children with blood lead levels of 10 mcg/dL and above by the total number of children tested for lead poisoning during a time period.

**Numerator:**

The number of children with blood lead levels  $\geq$  10 mcg/dL.

**Denominator:**

The total number of children tested during a time period.

**Units:** 100    **Text:** 1

**HEALTHY PEOPLE 2010 OBJECTIVE**

Environmental Health 5-13, 11.

Reduce the prevalence of blood lead levels exceeding 10  $\mu$ g/dL to 0 in children aged 1-5.

**DATA SOURCES AND DATA ISSUES**

Data used comes from the IL Lead Poisoning Program data base. Approximately half of the data is transferred from the State Lab where specimens are analyzed. The remainder comes from private labs who are mandated reporters, however there is no enforcement mechanism. Therefore, collection of data from private labs may be incomplete.

**SIGNIFICANCE**

Young children and the developing fetus, particularly, are at risk for lead poisoning. It damages the body internally and negatively affects the formation of red blood cells. Very high levels of lead can cause seizures, coma and death. If a child has been exposed to high levels of lead, he or she may suffer severe mental retardation. Even at lower levels of exposure, a child can suffer from developmental delay, lower IQ, hyperactivity, learning disabilities, behavioral problems, impaired hearing and stunted growth. Compounding the problem of lead poisoning is the fact that children who have elevated blood lead levels early in their lives may have no symptoms, which means that parents can be unaware of the condition.

**OBJECTIVE**

2006	2007	2008	2009	2010
4.2	3.7	3.6	3.5	3.4

SP # 6

**PERFORMANCE MEASURE:**

The rate of unintended pregnancy

**GOAL**

To decrease the number of mistimed or unwanted pregnancies

**DEFINITION**

The final measure is the proportion of unintended live births from the Pregnancy Risk Assessment Monitoring Systems (PRAMS) survey of Illinois. 2002 Baseline: 42.9 percent

**Numerator:**

The number of women who indicated that their recent pregnancy was mistimed or unwanted, estimated from the PRAMS survey.

**Denominator:**

The number of women who gave birth, estimated from the PRAMS survey.

**Units:** 100 **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

Reproductive Health: 1.3f. Unintended Pregnancy (females aged 15 - 44 years)

HP2010 Goal: 30.0 percent. The national HP2010 goal is based on the National Survey of Family Growth (NSFG)

**DATA SOURCES AND DATA ISSUES**

Illinois PRAMS Survey

**SIGNIFICANCE**

Using PRAMS data, Illinois's unintended pregnancy rate at birth is among the highest in the nation. At least one half of all infants born are unintended. Many of these births result in adverse health outcomes which include prenatal mothers who are less likely to seek prenatal care, less likely to breastfeed, more likely to smoke or use alcohol, more likely to have a low birth weight infant and are at risk for abuse. Approximately 50% of unintended pregnancies are terminated by abortion. As a response, the WIC, FCM, School-based Health Clinics and the Family Planning programs provide screening, counseling and education to this population. Specifically, the Family Planning program is using the demographic profile of high-risk clients who are most likely to experience a pregnancy while taking contra captives to better target effective methods, address side effects, and stress consistency of use. Dissemination of information to public health partners who are addressing unintended pregnancy in the state is underway.

**OBJECTIVE**

2006	2007	2008	2009	2010
42	41	40	39	38

SP # 7

**PERFORMANCE MEASURE:**

The incidence of chlamydia among adolescents and young adults

**GOAL**

To reduce the proportion of positive screens among ages 15 to 24 years

**DEFINITION**

The rate is based on the total number of reported cases to the Illinois Department of Public Health (IDPH).

**Numerator:**

The number of reported cases among persons aged 15-24 years

**Denominator:**

The most recent census estimate of the population aged 15-24 years. (The IDPH rate is based on census population only.)

**Units:** 1000 **Text:** Rate

**HEALTHY PEOPLE 2010 OBJECTIVE**

25-1a. Females aged 15 to 24 years attending family planning clinics

HP2010 Goal: 3.0 percent Prevalence 2003 US Baseline: 6.4 percent 2003 IL Baseline: 7.3 percent

The measure is not directly related to the HP2010 objective. The measure is incidence among the total population of older children and young adults. Incidence 2004 IL Baseline: 186.7 per 1,000

**DATA SOURCES AND DATA ISSUES**

IDPH, State Laboratory and IDPH, STD Section. IDPH maintains two sets of data for screening of Chlamydia. One is for reporting cases among the general population and the other is the IDPH infertility database which maintains positivity for screening of females. The number of reported cases, rate and rank is readily available at both the CDC's and IDPH's web site.

**SIGNIFICANCE**

The reported cases of Chlamydia in the US continue to be on the rise. More significant is the fact that cases are under reported because the sexually-active population do not know they harbor this treatable disease. Left untreated, Chlamydia can lead to Pelvic Inflammatory Disease (PID) and infertility. Incidence has increased 5.1 percent from 2002 to 2003. Illinois ranks 7th in the nation for total cases and rates among all ages. At least 70 percent of total reported cases in Illinois are among persons aged 15-24. Also significant is the fact that Illinois is among states collecting simultaneous testing results from the same sample screen for detection of both Chlamydia and Gonorrhea. Gonorrhea also contributes to PID and infertility.

**OBJECTIVE**

2006	2007	2008	2009	2010
185	184	183	182	180

SP # 8

**PERFORMANCE MEASURE:**

The prevalence of child overweight

**GOAL**

The prevalence of child overweight, greater than or equal to 95% BMI-for-age among children 2-5 years

**DEFINITION**

The final measure is the proportion of unintended live births using PRAMS data. More time is needed to evaluate the response and report the data (1-2 year lag time)

**Numerator:**

The number of WIC children aged 2 to 5 years who have BMI-for-age equal to or greater than the 95 percentile

**Denominator:**

The number of all WIC children aged 2 to 5 years

**Units:** 100 **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

19-3. Reduce the proportion of children and adolescents who are overweight or obese  
This goal is currently un-related to this measure. HP210 Goal: 5.0 percent 1994 US Baseline: 11.0 percent among 6 to 19 year olds Related to this measure are data on young children in WIC. 2002 US Baseline: 14.3 percent 2003 IL Baseline: 14.0 percent See section below on Data Sources and Data Issues.

**DATA SOURCES AND DATA ISSUES**

Illinois Cornerstone data for the WIC program. These data are submitted to the CDC's Pediatric Nutrition Surveillance System (PedNSS) where every state's data are 'cleaned' and published as final (2 year lag). The national PedNSS percentage compares annual data with the next year's state data. Its annual release is March for previous year surveillance state data. The national PedNSS percent in 2002 was 14.3 percent. This system strictly monitors the nutritional status of low-income children in the Title V program and does not set 2010 goals, for example (see PedNSS function in "Significance" section). The CDC's 2010 Objectives cite the National Health and Nutrition Examination Survey (NHANES) as data source. These data are not timely (3 year lag). The NHANES 1988-94 baseline is 11 percent and the survey 2010 goal is 5 percent for measuring child and adolescent overweight.

**SIGNIFICANCE**

Child overweight has resurfaced as a major significance for states and the Title V program. Illinois has future plans to implement nutrition surveillance for all WIC children and school-based health center students. The goal of PedNSS is to guide public health policy and action. The PedNSS system is used to set priorities and to plan, implement, and evaluate nutrition programs.

**OBJECTIVE**

2006	2007	2008	2009	2010
13	12.5	11.5	10.5	10

SP # 9

**PERFORMANCE MEASURE:**

The proportion of children under 36 months of age in WIC or FCM who have received at least one developmental screening test in the previous 12 months

**GOAL**

To increase the proportion of young low-income children receiving complete services during their well child visits.

**DEFINITION**

The WIC or FCM measure of children receiving one developmental screening is at 12, 24 and 36 months of age. Measuring the proportion of children less than 36 months includes the total of children ages 12 to 36 months of age in WIC or FCM who have received a developmental screening test within the previous 12 months. The annual range is from April to April. 2004 IL Baseline: 60.0 percent

**Numerator:**

The number of children aged 12 to 36 months of age in WIC or FCM who have had one developmental screening test within the previous 12 months

**Denominator:**

The number of children aged 12 to 36 months of age in WIC or FCM

**Units:** 100    **Text:** Percent

**HEALTHY PEOPLE 2010 OBJECTIVE**

None

There are no objectives or related objectives defined in HP2010. 2010 Illinois IDHS Goal: 80.0 percent

Further, there are no measures, targets or goals relating to the proportion of low-income children receiving one developmental screening that can be found in policies or procedures of EPSDT, the American Academy of Pediatrics, the Community Mental Health Services Block Grant program or found in those federal programs that mandate screening and mental health services (Head Start, Early Head Start, Title 1 and the Child Care and Development Block Grant program).

**DATA SOURCES AND DATA ISSUES**

WIC and FCM participant state data

**SIGNIFICANCE**

Three federal programs (Medicaid, SCHIP and MCH) providing health insurance also provide opportunities for identification of low-income children with developmental problems or conditions. Progress toward this goal will also show an increased proportion of these children referred to the Early Intervention Program among the general population of children less than 3 years of age.

**OBJECTIVE**

2006	2007	2008	2009	2010
68	71	74	77	80
